Adjustment Rules 2009:

1. The fuel surcharge will be adjusted on a monthly basis and will be valid for one calendar month.
2. The surcharge will be calculated based upon a one month average USD per barrel price for (IPE) London Brent Crude Oil as quoted by Reuters, converted into the respective currencies in the matrix above. The conversion rate will be the average for the same one month period, as quoted by the Swedish National Bank.
3. The adjustments will take place on the 1st of the month.
To facilitate new BAF rates on the 1st of each month, the calculation is based on the average Brent crude price and USD rate of exchange up to the 25th of the previous month (i.e. January is based on 26 November to 25 December).
